1. WHAT IS A LEAD?

A **Lead** is a **prospective customer** that has shown interest in your products/services but hasn't yet become a paying customer.

Typical Lead Workflow:

Prospect → LEAD (Interest Shown) → QUALIFIED → OPPORTUNITY → CUSTOMER

Key Information Stored in a Lead:

Identification: Name, Email, Phone, Company

Status: NEW → CONTACTED → QUALIFIED → PROPOSAL SENT → CONVERTED/LOST

Lead Score: 0-100 rating of how qualified the lead is

Source: Where the lead came from (Website, Email, Referral, etc.)

Assignment: Which salesperson owns this lead

Dates: Created, Last Contact, Qualified date

Value: Estimated deal size if converted

2. WHAT IS A LEAD SOURCE?

A **Lead Source** is the **channel/origin** where a lead came from. It answers: "How did this person find us?"

Your Available Lead Sources:

Code	Name	Example Usage
WEB	Website	Contact form submission on your website
REF	Referral	Existing customer recommended your company
CALL	Cold Call	Your sales team called them
EMAIL	Email Campaign	Marketing sent them a campaign email
SHOW	Trade Show	They visited your booth at an event
SOCIAL	Social Media	They found you via LinkedIn, Facebook, Instagram
ADV	Advertisement	Google Ads, Facebook Ads, paid advertising
INBOUND	Inbound Inquiry	They called or messaged you directly
OTHER	Other	Doesn't fit the above categories

3. LEAD LIFECYCLE - STEP BY STEP

Stage 1: LEAD CREATED (NEW)

Action: Someone shows interest in your business

Status: NEW

Who: Salesperson or marketing person creates lead

Data: Name, Email, Phone, Company, Lead Source

Example: "John from ACME Inc visited our website - WEB source"

Stage 2: LEAD CONTACTED

Status: CONTACTED

Action: Salesperson reaches out to the lead

Update: last_contact_date is recorded

Example: "Called John to understand his requirements"

Stage 3: LEAD QUALIFIED

Status: QUALIFIED

Action: Lead meets your criteria (budget, authority, need, timing)

Data: lead_score increases, qualified_date recorded

Example: "John confirmed: budget $50K, decision in Jan 2026"

Stage 4: PROPOSAL SENT

Status: PROPOSAL SENT

Action: Send formal proposal/quote to lead

Data: estimated_deal_size = $50,000

Example: "Sent proposal to John for $50K contract"

Stage 5: CONVERTED or LOST

■ **CONVERTED:** Lead becomes a paying customer

→ Move to Opportunity/Customer module

→ Track as closed-won deal

■ **LOST:** Lead decided not to proceed

→ Reason documented in notes

→ Can reopen later if they re-engage

4. REAL-WORLD EXAMPLES

Example 1: Website Lead

Website visitor fills contact form

↓

System creates Lead:

lead_name: "Sarah Johnson"

company_name: "Tech Solutions Inc"

email: sarah@techsol.com

source: LeadSource(code='WEB', name='Website')

status: NEW

lead_score: 50

assigned_to: "John Smith" (Salesperson)

Day 1: Sales team contacts Sarah

status: CONTACTED

last_contact_date: 2025-11-24

notes: "Sarah interested in licensing product"

Day 3: Sarah confirms requirements

status: QUALIFIED

lead_score: 85

estimated_deal_size: $75,000

qualified_date: 2025-11-26

Day 5: Send proposal

status: PROPOSAL_SENT

Day 10: Contract signed

status: CONVERTED

Move to Opportunity module as Closed-Won deal

Example 2: Referral Lead

Existing customer "ACME Corp" refers "Global Industries"

↓

Sales team creates Lead:

lead_name: "Mike Chen"

company_name: "Global Industries"

source: LeadSource(code='REF', name='Referral')

notes: "Referred by ACME Corp - strong fit"

lead_score: 90 (referrals often highly qualified)

status: CONTACTED (sales team reached out via existing customer)

Result: Higher conversion rate because it's a warm lead

5. LEAD SCORING - HOW GOOD IS THIS LEAD?

Lead Score: 0-100

Score Range	Status	Action
0-30: "Cold"		Not ready to buy → Nurture with content, emails
30-60: "Warm"		Showing interest → Have conversation, understand needs
60-80: "Hot"		Actively interested → Move to QUALIFIED status, Create proposal
80-100: "Blazing"		Ready to buy NOW → Priority follow-up, Handle by senior salespe

How Scores Change:

• Opens marketing email? **+5 points**

• Visits product page? **+10 points**

• Downloads whitepaper? **+15 points**

• Attends webinar? **+20 points**

• Requests demo? **+25 points**

• Days since contact? **-2 points per week** (stale leads lose points)

6. KEY BUSINESS USE CASES

Use Case 1: Track Sales Performance

Question: "Which salesperson converts the most leads?"

Result: Shows productivity of each salesperson

Use Case 2: Measure Channel Effectiveness

Question: "Which lead source generates best customers?"

Result: Website: 100 leads, 25 converted (25%)
Referral: 20 leads, 15 converted (75%) ← BEST!
Cold Call: 50 leads, 5 converted (10%)

Use Case 3: Calculate Revenue Impact

Question: "How much revenue comes from each source?"

Result: Website: $750,000 | Referral: $450,000 | Cold Call: $200,000

Use Case 4: Identify Stale Leads

Question: "Which leads haven't been contacted in 30+ days?"

Result: Follow up on these leads or re-assign

Use Case 5: Lead Distribution

Question: "Distribute 50 new leads fairly among 5 salespeople"

Result: Assigns 10 leads to each person based on current workload

7. LEAD STATUS WORKFLOW

■■■

8. LEAD FIELDS REFERENCE

Field Name	Purpose
lead_number	Unique ID (AUTO-GENERATED)
lead_name	Contact person name
company_name	Company/organization name
email	Contact email address
phone	Contact phone number
address	Full mailing address
status	Current lead stage (NEW, CONTACTED, QUALIFIED, etc.)
source	Where lead came from (Website, Referral, etc.)
lead_score	0-100 quality rating
estimated_deal_size	Potential deal value if converted
assigned_to	Sales rep owner of this lead
created_date	When lead was created
last_contact_date	Last interaction date
qualified_date	When lead became qualified
notes	Internal comments/observations

9. LEAD vs. OPPORTUNITY vs. CONTACT

LEAD:
• Unknown/new prospect
• No established relationship
• Status: NEW → CONTACTED → QUALIFIED
• Example: "John from website form"

CONTACT:
• Known person in target company
• Existing relationship
• Can be: decision maker, influencer, etc.
• Linked to Account/Company
• Example: "John Smith - VP at ACME Corp"

OPPORTUNITY:
• Qualified lead ready to become customer
• Has deal size, probability, close date
• Status: Proposal → Negotiation → Won/Lost
• Example: "$50K licensing deal with ACME"

PROGRESSION FLOW:
Lead (NEW) → Contact (relationship) → Opportunity (deal) → Customer

10. PRACTICAL DASHBOARD METRICS

Sales Manager Dashboard would show:

■ LEAD PIPELINE
- New Leads: 15 (Last 7 days)
- Total in Pipeline: 247
- Win Rate: 32% (Converted/Total)

■ BY SOURCE
- Website: 45 leads → 15 converted (33%)
- Referral: 20 leads → 18 converted (90%)
- Cold Call: 50 leads → 8 converted (16%)
- Email: 132 leads → 12 converted (9%)

■ BY SALESPERSON
- John: 50 leads → 18 converted (36%)
- Sarah: 60 leads → 22 converted (37%)
- Mike: 40 leads → 10 converted (25%)

■ PIPELINE VALUE
- Total qualified deals: $2,450,000
- Expected revenue (32%): $784,000

■ AGING
- Leads > 30 days old: 45 (need follow-up)
- Leads > 60 days old: 12 (re-qualify)

11. QUICK REFERENCE GUIDE

Situation	Action	Status
Website form submission	Create Lead	NEW
Salesperson gets referral	Create Lead with source=REF	NEW
Need list of prospects	Filter Leads by score, source	—
Convert to customer	Change status to CONVERTED	CONVERTED
Customer went silent	Mark as LOST after 90 days	LOST
Find best sources	Group by source, count conversions	—
Assign work fairly	Distribute new leads evenly	—
Track performance	Count conversions per salesperson	—

SUMMARY

■ **LEADS = Your Sales Pipeline**
- Prospect interested in your product
- Need qualification and nurturing
- Can become customers

■ **LEAD SOURCE = Where leads come from**
- Website, Referral, Email, Cold Call, etc.
- Track which channels work best
- Measure ROI of marketing/sales efforts

■ **USAGE:**
1. Create lead when prospect shows interest
2. Update status as they progress through pipeline
3. Track source to measure channel effectiveness
4. Score leads to prioritize follow-up
5. Assign to salespeople for ownership
6. Convert to customer when deal closes
7. Analyze trends to improve sales process
